EXPERIENCE

Process Executive - Data — Nov 2021 - Jun 2024

Cognizant Technology Solutions India Pvt Ltd, Coimbatore, TN

- Improved process efficiency and client satisfaction through data analysis and actionable insights.
- Collaborated with cross-functional teams to meet project goals and enhance communication.
- Gained Agile experience, adapting to dynamic project requirements.
- Transitioned into web development, focusing on MERN stack (HTML5, CSS3, JavaScript, React.js) to build responsive, user-friendly websites.

PROJECTS

Portfolio Website (2025)
Technologies: React.js, React Router, React Hooks, Netlify
Developed a responsive portfolio website showcasing skills and projects. Integrated React Router for navigation and React Hooks for state management. Deployed on Netlify.

E-commerce Website Clone (2024)
Technologies: React.js, Node.js, Express.js, MongoDB, Stripe API
Built a full-stack e-commerce platform featuring product filtering, cart functionality, and user authentication. Developed backend with Node.js and Express.js, and integrated MongoDB and Stripe API for payments.

Task Management Application (2024)
Technologies: React.js, Redux, Node.js, MongoDB
Created a task management app with real-time updates, leveraging Redux for state management and MongoDB for data persistence. Integrated backend services using Node.js.

CERTIFICATIONS

AWS DevOps, GREEN's Technology — May 2022 - Aug 2022
